2. This proposal does not consider commitments for D/I participation in country activities by other area, office, or DD/I echelons and will have to be amended if such commitments exist and must be fulfilled by directive. It is, however, a statement of our feeling as to how D/I can best meet its problem of allocating research time to many types of sources.

3. Memoranda from each Branch Chief regarding this subject are available in D/I.
